

FACILITIES BY JAI GURUDEV INTERNATIONAL SCHOOL

Classroom

The school building of *Jai Gurudev International School* has been specially designed to give it a stylish and international look. It is a huge building with a spacious campus. For academic progress to take place our classrooms are well ventilated and furnished with white boards.

Classroom Technology

We have digital class and certain topics are taught with the help of this technology so as to make learning attractive and interactive for the students.

Computer Lab

At *Jai Gurudev International School* we realize that of technology is becoming increasingly difficult for someone to function without a knowledge of computers and we have a computer lab in the school premises. The computer lab has adequate number of latest PCs which have all the required software installed. All PCs have internet connection. This lab is specially designed to educate the students with the latest technology so that the children get comfortable with technology from a young age.

Labs and library

There are well equipped Science laboratories, Math's laboratory, Computer laboratory. We also have a library with good stock of books and periodicals.

Sports and Games Ground

Our school has a sufficient space for different games and sports to be played. To inculcate sporting spirit among the students. We have sports for all age groups so that children can relax and exercise and for this we have a trained Physical Training Instructor to train the students in various indoor and outdoor games.

Transport

Jai Gurudev International School has a bus service to take children to and from the school. Each bus has a trained driver, conductor and a lady attendant who is equipped with a mobile phone and cameras.

The details of bus routes pick - up and drop – from the points, time schedules and bus charges will be provided by the school at the time of admission of students.
